Annually the Okavango Delta floodwaters fill from the Angolan highlands between the months of May and August, although many areas of the Delta host permanent water all year around. When the water levels gradually recede, water remains in major channels and river beds, in waterholes and in a number of larger lagoons, which then attract increasing numbers of animals

Situated along the south-eastern border of the Moremi Game Reserve near a permanent channel of the Okavango Delta, game viewing is varied and impressive at Sandibe. The beautiful lodge consists of 8 suites, uniquely designed in organic tones to offer unparalleled luxury in the middle of the wilderness.

Each suite has a comfortable bed, luxurious en suite bathroom and a private deck with plunge pool, overlooking the vast floodplains. The main area is a combination of wood and earthy colours and consists of an open dining area, upper level bar and comfortable lounge area, ideal for relaxing between activities. There is also a spa for some additional pampering for guests.

Activities primarily focus on game drives, where the ability to off-road allows the guests to get up close to a diversity of wildlife, although walking safaris are also available on request.
